

Lead, Occupational Hygiene

Location: Logan Lake, British Columbia, CA

Closing Date: Open Until Filled

As Canada's largest diversified mining company, Teck is committed to providing the world with essential resources safely and sustainably. We have a rich history of consistently driving innovation, harnessing cutting-edge technology, and cultivating a dynamic environment that empowers our employees to shape the future.

Reporting to the Superintendent, Compliance and Management Systems, the Lead, Occupational Hygiene will be responsible for leading all aspects of the Occupational Health and Hygiene (OH&H) performance at HVC by providing mentorship on OH&H systems and programs. The position will support the operation in meeting OH&H improvement objectives by coordinating with line Management, Supervision, Workers, and Contractors. The position provides OH&H leadership and coordination to effectively run OH&H management systems.

Responsibilities:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures.
- Initiate, develop, implement, and maintain physical and chemical exposure monitoring and assessment studies,
- Evaluate and interpret the data acquired from studies and recommend mitigation strategies
- Establish OH&H management systems and programs in alignment with Teck and regulatory requirements
- Facilitate the development, execution, and reporting of annual site exposure reduction plans
- facilitate and participate in risk assessments and investigations related to OH&H exposures and support identification and implementation of improvement opportunities
- Provide technical OH&H advice and assistance to groups across the site
- Develop communications and present OH&H data and programs to vital team members
- Prepare, coordinate, and deliver technical training and informative presentations to the operation
- Maintain a constructive relationship with external and internal stakeholders
- Maintain current and accurate records of workplace exposures to supervise historical trends and provide reporting to key partners
- Be responsible for surveillance programs and use exposure supervising data to ensure appropriate workgroups are collected
- Coordinate external hygiene consultants and analysis services to ensure the quality of deliverables
- Represent the site on company OH&H committees
