

## Senior Occupational Hygienist

### The Opportunity

BluMetric Environmental Inc. is searching for a Senior Occupational Hygienist who is ready for a challenge! The individual will work as part of a multi-discipline team of occupational hygienists and occupational health & safety professionals, delivering quality IH/OHS services to our clients in a variety of sectors, including (but not limited to) manufacturing, industrial, health care, education, mining, construction, and government (federal, provincial and municipal). You must be motivated and client-focused, quality-oriented, and thrive in a high-energy, fast-paced environment.

Work location is flexible within our Toronto, Kingston or Ottawa offices.

### Qualifications and Requirements

- A level of education, training and experience equivalent to a Master's Degree in Science or Engineering (Master's Degree in Occupational/Industrial Hygiene preferred)
- Registration as a Registered Occupational Hygienist (ROH) or Certified Industrial Hygienist (CIH).
- A minimum of 7 years of experience with a strong understanding, familiarity, and appreciation of a fast paced consulting work environment.
- Ability to adapt behavior, opinions, tactics and strategies to different situations, individuals, or changing priorities.
- Advanced technical knowledge of the principals and comprehensive practice of industrial/occupational hygiene.
- Strong exposure judgment and strategic thinking for IH/OH issues with practical solutions.
- Proficient in the use of IH related equipment such as sampling pumps, sound level meters, dosimeters, and a variety of direct-reading instruments.
- Familiarity with hazardous materials/ designated substances surveys, indoor air quality and mould assessments, supervision of asbestos and mould abatement.
- Knowledge of provincial, territorial and federal occupational health and safety legislation.
- Advanced knowledge and experience with MS Office (Word, Excel, PowerPoint).
- Highly effective communication skillsets - reading, writing, and verbal.
- Willingness and ability to mentor junior IH/OHS professionals.

- Willingness to collaborate within the team and company.
- Travel and occasional periods away from your normal place of work may be required.
- Valid driver's license.
- Fluency in English (spoken and written), French fluency is an asset

### **Job Responsibilities**

- Participate in the full cycle of project management; proposal writing, IH strategy development, supervising field work, analyze results, report writing and review.
- Coordinate and/or conduct qualitative and quantitative worker exposure assessments of chemical, physical and biological agents in a wide variety of sectors.
- Coordinate and/or conduct indoor air quality surveys.
- Develop mould/asbestos abatement specifications and oversee remediation.
- Deliver effective training (and assist to develop) on industrial hygiene related programs and topics.
- Conduct occupational hygiene, health and & safety compliance/conformance and management systems audits.
- Mentor junior IH/OHS professionals.
- Work with the business development team to grow the practice in the company.
- Assist with the development of corporate health & safety from time to time; act as a health and safety resource for others in BluMetric.

### **What BluMetric is offering...**

- A challenging career with growth opportunity in a fast paced work environment with a great team.
- An exceptional learning opportunity.
- A friendly work environment.
- Competitive remuneration and full benefits package.
