Job Opportunity

Occupational Hygienist (Temporary) **Teck Resources Ltd – Sparwood Shared Services, near Sparwood, BC**

Reporting to the Lead Occupational Hygienist, the Occupational Hygienist is responsible for developing broad exposure reduction programs, implementing engineering controls, applying industry-leading particulate monitoring and providing technical support for our occupation health and hygiene team. This is a temporary 12-month position.

To be successful, we are looking for a collaborative team player with excellent interpersonal and communication skills who can influence others and foster strong relationships with a diverse range of partners. This role requires a positive and hard-working individual who is self-motivated and can prioritize multiple demands in a fast-paced environment with minimal direction.

You will have the opportunity to be deeply involved in advancing engineering exposure controls and applying industry-leading particulate monitoring technologies at our mine sites and water treatment facilities. Be part of our hardworking team of health and safety professionals as we ensure an ongoing, company-wide dedication to "Everyone Going Home Safe and Healthy Every Day".

Join us for this opportunity to experience life in the breathtaking Elk Valley of British Columbia. Here you will find outdoor adventure at your fingertips. Whether it's biking and skiing, or the laid-back atmosphere of fishing and hiking, there is something for everyone. Working a compressed work week with alternating Fridays off, come experience what work life balance is all about!

Responsibilities:

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Develop, implement, and manage physical and chemical exposure monitoring programs and assessment studies
- Analyze occupational hygiene data and recommend mitigation, prevention and improvement strategies in consultation with operations, project teams and relevant stakeholders
- Interpret and apply occupational health and safety regulations in the development and implementation of best practices, policies and programs

- Deliver technical training and informational presentations to operation based employees, health and safety teams and management
- Coordinate audits to evaluate the efficiency and adequacy of existing occupational health programs and find opportunities for improvements
- Provide technical expertise regarding Safety Data Sheets
- Contribute to the Teck Corporate and Teck Coal Health and Hygiene Committees
- Coordinate external hygiene consultants and analysis services to ensure the quality of results
- Build and maintain positive working relationships with regulatory agencies, associations, unions, and operations and management teams

Qualifications:

- Degree in Occupational Hygiene, or related degree
- Minimum five years of experience evaluating and controlling occupational exposures in an industrial environment
- Solid understanding of applicable Health and Safety regulations
- Strong digital literacy and experience with Cority and the Microsoft Office Suite®, especially Outlook, Word, and Excel; PowerBI would be an asset
- Certified Industrial Hygienist Certificate from the American Board of Industrial Hygiene, Registered Occupational Hygienist from the Canadian Registration Board of Occupational Hygienists, or equivalent international designation, or in process for designation, would be an asset
- Experience with large scale water treatment processes would be an asset

Successful candidates must be fully vaccinated against infection by COVID-19. Candidates who are unable to be vaccinated due to a personal characteristic protected under applicable human rights legislation may request to be exempt from this requirement. We will do our best to accommodate those who are unable to be vaccinated.

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.

Qualified applicants interested in joining a dynamic team are encouraged to submit a resume and cover letter electronically.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, steelmaking coal and zinc, as well as investments in energy assets.

Headquartered in Vancouver, Canada, its shares are listed on the Toronto Stock Exchange under the symbols TECK.A and TECK.B and the New York Stock Exchange under the symbol TECK.
